A typical day at TtMadrid

9.15 am

Trainees begin to arrive at our school in the most exclusive neighborhood in Madrid. They grab a coffee and get ready for the day and fuel up with some fruit, which is available around the school.

9.30am

The first workshop of the day begins with grammar, learning about 'Definite and Indefinite Articles'.

10.00am

The next part of the morning explores the best ways to structure an individual class. The students work together to decide on logistics, activities and how to best adapt teaching techniques for just one student.

11.15am - 11.30am

Break. Just enough time to get a cup of coffee or tea from the kitchen, chill on the balcony or head downstairs for a quick walk around the block to enjoy the sun!

11.30am

Students head back to the training room for an energetic input, 'Business English'.

1.00pm

LUNCH! Many students choose to bring lunch and leave it in the fridge and eat with their classmates. While most students will get together and eat in our 'Chill Out Room', others often go to the park (that's just a block away!) in the warmer months. We also have tons of discounts in local restaurants and cafes if you do feel like grabbing something typically Spanish.

2.00pm - 3.30pm

Trainees head back to learn how best to correct their students' errors.

3.40pm - 6.00pm

Excitement and exhilaration fill the school as the trainees head to their FIRST observed teaching practices with real students from Madrid. Once they finish, they have a feedback session with the trainer to see what they did well and how to improve for their next class.

Our accredited TEFL course

Put the theory into practice

During the course you will have six observed teaching practices, where you teach real students from Madrid. Each teaching practice will expose you to a different level and dynamic and you'll have to prepare it fully so you get to understand how to create lesson plans and the reality of using them in class. One of your trainers will be taking notes during the class on the things you do well and areas to improve, which you'll be able to go through and discuss after your class. These teaching practices help you feel fully prepared for anything so once you leave TtMadrid, you'll enter into any classroom with confidence.

What our students say...

“

Best TEFL course in Madrid! Outstanding support from excellent teachers, great materials and opportunity to teach 6 practice classes. This course was lots of hard work and fun - I can't recommend it highly enough!

- Alex Hart

“

The course itself was very intensive but presented in such a way that you were always aware of what is expected of you. The teaching practices gave one the opportunity to prepare for real-life teaching. I will recommend TtMadrid to any native or non native English speaking person that wants to do a TEFL certification.
