# Discover SPAIN WHILE TEACHING ENGLISH

Welcome to our Teach English in Spain Guide - one of the most popular tourist destinations in the world.

From its rich history and culture, world-famous cuisine, and stunning landscapes, to its buzzing beaches and nightlife resorts, Spain really does offer something for everyone.

We've spent nearly 20 years helping people come to Spain as English teachers to experience the language and culture like a local. We know everything there is to know about starting afresh in a new country and have put together some ideas to help you settle in and develop your career as an English teacher in Spain.

# MADRID

## IMMERSE YOURSELF IN THE LANGUAGE AND CULTURE OF SPAIN

Madrid is a buzzing capital city and offers an authentic taste of the Spanish lifestyle and culture.

The trendy areas of Lavapiés, La Latina, and Malasaña are great for partying the night away as well as the gay neighborhood of Chueca. If partying is not your scene, you can head to Casa de Campo and take in the beauty of Madrid's biggest park. Whatever you are looking for, you'll find it in Madrid.

Madrid welcomes people from all over the world and is known for its friendly atmosphere. With the population becoming increasingly internationalized, there is always demand for English classes and therefore plenty of work for our TEFL graduates.

Not only will you be helping others to master a new language, but you too will get the chance to be on the receiving end of language classes with our Spanish classes. We offer our TEFL graduates Spanish classes, ensuring they feel settled and confident in their new surroundings.

### Our School:

C. de Montesa, 35,  
1<sup>o</sup> 2<sup>a</sup> izq, 28006 Madrid

# FUND YOUR ADVENTURES

Find a job as a TEFL Teacher that will allow you to work anywhere in the world

---

## GET TO SPAIN

# TEACHING OPPORTUNITIES IN MADRID

## Academy classes

Privately owned establishments where teachers can enjoy a more fixed schedule usually consisting of evening hours to tend to kids and adults school/work schedules. Teaching includes adult and kid classes as well as exam preparation.

## Private classes

Often used as a supplement income, private classes can take place in the house of the teacher, the client or even in a bar or cafe. As there is no middle man, you can charge more for private classes, but cancellations are common, and there is less job security.

## In-company English

Usually take place in the office of the client. Business clients tend to contract English teachers through agencies and the classes can be group or individual.

# VISAS

Thinking of taking a gap year? You won't regret it! First things first; let's see whether you need a visa.

If you have a European passport, you'll be able to live, work and study in Spain with no visa for as long as you want.

If you don't hold a European passport, you'll need a visa to be here longer than 90 days.

## TYPES:

1

Student Visa

2

Visa Renewal

**STUDENT**

# VISA

To apply for a student visa, you'll need to be accepted into a course and get together all the paperwork that your nearest consulate requires. It usually takes around two to three months to gather and submit all the documents and then receive your visa. Student visas can be for any duration, but if you're planning on being in Spain for longer than 6 months, you should apply for a year's visa, which can be renewed from Spain before your visa expires.

TtMadrid offers a year-long academic program, which allows students to apply for a visa. The program immerses you in the language and culture of Spain with an intensive program of Spanish classes and a range of cultural activities.

## REMEMBER

There are never too many questions:

It's always frustrating being referred back to a website for information when you were looking for a personal answer. Moving away from home and setting up your life in a new country is a big step so you we'll answers all the question you have before you even consider paying a deposit.

### Google Reviews

You should check out independent reviews of the courses that you're looking at. Google is a great source of information as you'll get information straight from real students and it won't have been written by the company.
